STATE BOARD OF EDUCATION

Regents of the Montana University System, ex officio

The State Board of Education consists of eleven members including the Governor, the State Superintendent of Public Instruction and the Attorney General as members, ex officio. The Governor appoints, by and with the consent of the Senate, the remaining eight members. These appointments must provide for equal representation between the first and second congressional districts and must assure that no more than four members are from the same political party or organization. The term of office for appointed members is eight years.

Acting on recommendations of the State Superintendent, the Board establishes standards for the accreditation of elementary and secondary schools and adopts rules and regulations for the issuance of teachers' certificates as prescribed by law. The control and supervision of the Montana University System, the Division of Vocational Rehabilitation, and the Montana State School for the Deaf and Blind are vested in this Board. In addition, the Board approves certain scholarships provided for by law. The Board also serves as the State Board for Vocational Education, with the State Superintendent as executive officer.

The State Board of Education serves ex officio as Regents of the Montana University System. The executive secretary of the Montana University System is secretary of the Board as Regents.

PUBLIC ELEMENTARY AND SECONDARY SCHOOLS

On the following pages, Montana counties are listed alphabetically and under each county the elementary school districts located in the county are listed in numerical sequence. The high school districts are listed in conjunction with the elementary disctrict in which the high school is located. County high schools are listed immediately following the elementary districts in which they are located.

The information for each school district is divided into four parts: (1) school district data; (2) school administrator and school telephone; (3) school name and address and (4) number of teachers and pupils as of October 1, 1970.

The first column, **School District Data**, lists the school district number, the state office identification code, the classification of the elementary school district, the district's post office address, and the chairman's name and address. The school district number appears in bold type and is followed by a 4 digit number assigned by the Superintendent of Public Instruction. This identification number is for reference use by staff members and computer programs of the office of the Superintendent of Public Instruction. The district classification appears in the parentheses. The community shown under the school district number is the post office address for all mailing purposes in the district unless some other post office address is indicated under an individual listing. The person named in this column is always the chairman of the board of trustees.

When an elementary district and a high school district operate an accreditated junior high school, the "Junior High School" identification will appear in the first column.

Joint school districts are identified in the first column by listing the counties involved in the district and the county of the school's location.

The second column, **School Administrator** and **School Telephone,** lists the name of the school administrator and the school telephone number of the administrator. The "Superintendent" is the administrator of the school district listed in the first column. The "Principal" or "Supervising Teacher" is the administrator of the school listed in the third column. If a school district does not have an administrator, only the telephone number of the school is shown.

The third column, **School Name and Address**, identifies each operating school in the school district and the address of the school.

The fourth column, **Oct. 1, 1970 Teachers** and **Pupils**, lists the number of teachers and pupils for each school shown in column three as of October 1, 1970. The boldface numbers listed opposite "Totals" are the total number of full-time teachers and the pupils in the school district. The "Teachers serving multiple schools" listing gives the number of teachers serving more than one elementary, junior high school and/or high school. When a school district does not operate a school, the term "Non-Operating" appears in this column.

At the back of this directory, an **alphabetical index of the school districts** having a school administrator is included so that information on a school district may be found without knowledge of the county in which it is located.
